

October 29, 2018

Mr. Mike Stoker
Regional Administrator
U.S. Environmental Protection Agency
Region 9
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Stoker:

The California Air Resources Board (CARB) is submitting to the U.S. Environmental Protection Agency (U.S. EPA) revisions to the California State Implementation Plan (SIP) from the Antelope Valley Air Quality Management District (District). This submittal corrects deficiencies previously identified by U.S. EPA for the District. On June 27, 2017, CARB forwarded a letter of commitment from the District to U.S. EPA, agreeing to submit the District's amendments to Rules 1110.2 and 1171 to U.S. EPA within twelve months of the effective date of the final action, which is November 8, 2018.

This SIP submittal consists of the following enclosed documents:

1. CARB Executive Order S-18-017 adopting or amending the District Rules 1110.2, *Emissions from Stationary, Non-Road and Portable Internal Combustion Engines*, and 1171, *Solvent Cleaning Operations*, as revisions to the SIP.
2. The complete package the District submitted to CARB.

Included in the District package, to meet U.S. EPA criteria for determining that rule submittals are administratively and technically complete, is an evaluation of the effects of the rule on emissions and evaluation of the rule's consistency with 40 CFR 51.

Mr. Mike Stoker
